The Terrorist Nature of the US & its Preposterous Lies

By: Kayhan Int'l Staff Writer

Do the US regimes ever speak the truth, especially regarding their policies or incidents of national and international importance?

The answer is a big NO, which means the Democrats and the Republicans are preposterous liars, unabashedly twisting facts and shamelessly trying to distort realities, even if the whole world knows the truth.

Examples galore, including the myth of the holocaust in Europe during World War 2 when the death of a few thousand Jews amongst the 50 million Christian fatalities in the bloody conflict between the Allied and Axis powers was blown out of proportion to coin the lie of '6 million exterminated in gas chambers' in spite of the fact that the Jewish population was far less than the fictitious number on the eve of the said war.

Academics, researchers, and investigative journalists have long nailed this lie as the primary plot to plant in Palestine the usurper entity called Israel, and since today happens to be September 11, let us focus our attention on another untruth whose 21st anniversary is being commemorated in the US as the biggest 'terrorist attack' in American history.

Yes, the two supposedly passenger planes that brought down the 110-storey high twin towers of New York's World Trade Center today in 2001 in the full glare of TV cameras stationed hours in advance around it, were actually unmanned remote-controlled aircraft with person on board.

This means it was a purely inside job with explosives planted inside the city's landmark to cause an implosion and bring down the structure on its foundations the moment the two small aircraft plowed through its towers, since their impact was not enough to cause thousands of tons of steel to explode and fall on adjoining buildings.

As engineering experts point out the World Trade Center was brought down neatly through controlled demolition techniques. Moreover, jet fuel cannot melt steel beams; so how could paper copies of passports of the alleged hijackers be found in the debris?

Another pointer that confirms it was an inside job was the absence from work or business at the World Trade Centre that day by any Jewish person from among the 3000 innocent deaths, although September 11, 2001 was Monday and not Sabbath.

These undeniable facts rule out the allegation of any terrorist attack by persons of West Asian origin taking orders from a mountain cave in faraway land to hijack planes from Boston airport, which means the FBI and Mossad had got together to plan the invasion of Afghanistan by the US later in 2001 followed by the war in 2003 by the Americans to occupy Iraq.

These are some of the points to ponder in order to understand the lying nature of the criminal US regime, which this year ended its 20-year long occupation of Afghanistan but continues to make life miserable for the Afghan people.

Through their never-ending pack of lies, the Americans have placed troops in several world countries, including Iraq, Syria, Egypt, Saudi Arabia, Bahrain,

Qatar, Yemen, and the UAE, on the pretext of safeguarding peace when the real intention is to plunder their wealth and aid and abet the terrorism of racist entity Israel against the Muslim world, especially against the Islamic Republic of Iran, where the Americans have always suffered ignominious defeats.

Foreign Ministry:

Sanctions Show U.S. Behind Albania Scenario

Albanian police officers stand in front of the Iranian embassy in Tirana on September 7, 2022.

TEHRAN -- Iran on Saturday strongly condemned a U.S. decision to impose sanctions on its intelligence ministry after baselessly accusing it of being behind a cyber-attack on Albania.

Albania severed diplomatic ties with Iran on Wednesday after accusing it of the July 15 cyber-attack in a move which many observers say is orchestrated by the U.S. and the occupying regime of Israel.

On Friday, the United States slapped sanctions on Iran's intelligence ministry and its minister Esmail Khatib.

Iran's Foreign Ministry spokesman Nasser Kanaani said Saturday: "The ministry of foreign affairs strongly condemns the action of the U.S. treasury department in repeatedly sanctioning the ministry of intelligence of the Islamic republic."

"America's immediate support for the false accusation of the Albanian government... shows that the designer of this scenario is not the latter, but the American government," he added in a statement.

Kanaani hit out at the U.S. for "giving full support to a terrorist sect," referring to the terrorist Mujahedin Khalq Organization (MKO), members of which are hosted by Albania.

Albania agreed in 2013 to take in members of the MKO from Iraq at the request of Washington, with thousands settling in the Balkan country over the years.

"This criminal organization continues to play a role as one of America's tools in perpetrating terrorist acts, cyber attacks" against Iran, the statement added.

The MKO sided with former dictator Saddam Hussein in the 1980-

1988 Iraqi war on Iran.

The anti-Iran terrorist group based in Albania has carried out numerous acts of terrorism on Iranian soil since the 1979 Islamic Revolution, martyring senior political leaders, clerics and ordinary civilians.

The European Union, Canada, the United States, and Japan had previously listed the MKO as a "terrorist organization".

In 2012, the group was taken off the U.S. list of terrorist organizations. The EU followed the suit, removing the group from its list of terrorist organizations.

"The Albanian government's hosting of a terrorist cult and the U.S. government's support for a group that has the blood of over 17,000 Iranian statesmen and citizens on its hands constitute a blatant

President Raisi to Visit Uzbekistan to Attend SCO Summit

TEHRAN -- Iran's foreign minister says President Ebrahim Raisi's scheduled visit to Uzbekistan to attend the Shanghai Cooperation Organization (SCO)'s summit will be a turning point in bilateral relations.

In a phone call with Uzbekistan's Foreign Minister Vladimir Norov, Hussein Amir-Abdollahi said Iran is ready to contribute to a successful summit that will be held in Samarkand on September 15-16.

The top Iranian diplomat conveyed President Raisi's warm

greetings to Uzbek President Shavkat Mirziyoyev.

For his part, Norov expressed satisfaction with the Iranian president's plan to attend the summit, which, he said, will host 14 heads of state.

The Uzbek foreign minister said the significance of Iran's membership and its capacities will be on the summit's agenda.

At its 21st summit in Dushanbe in September 2021, the SCO approved documents for Iran's full membership in the Eurasian political, economic, and security al-

liance.

Iran's accession to the full SCO membership will be finalized by April 2023, after signing the country's first memorandum of obligations at the Samarkand summit.

China, Kyrgyzstan, Pakistan, Russia, Tajikistan, India, Kazakhstan, and Uzbekistan are its current full members. Iran, Afghanistan, Belarus, and Mongolia are observer states.

The SCO accounts for 40 percent of the world's population and 28 percent of the global gross domestic product (GDP).

Iran One of Top Three Drone Powers

TEHRAN -- Commander of Iran's Khatam al-Anbiya Central Headquarters Major General Gholam-Ali Rashid has lauded the Islamic Republic's outstanding drone power.

The Iranian commander also underscored what he labeled a significant leap in the ways of confronting outside threats to the country.

General Rashid was speaking on the sidelines of his visit to an exhibition in Isfahan province, where the latest achievements of the Army Ground Force are displayed.

"Iran is now undoubtedly among the world's top three drone powers," he said.

"Focusing on the field of

drones should not prevent us from operational planning and progress in the area of ground combat since a powerful ground force is essential to the armed forces in the face of threats."

The Army Ground Force started two-day 'Authority 1401' exercises in the central Iranian province on Wednesday.

An invaluable point that needs to be taken into consideration is the limited time between receiving an order and manufacturing the desired product, the commander said, referring to the achievements of the Ground Force demonstrated in the exhibition.

"This shows the considerable pace of the Army Ground Force in obtaining advanced technolo-

gies and using them to confront future threats."

Iran's achievements in ground combat, he said, have been made under the harshest sanctions. "The Army Ground Force's might has grown. It is now well-equipped, disciplined, integrated, ready, and capable of suppressing any aggressor."

Enemies monitor the features of our Ground Force to evaluate the Iranian combat power, he said. By boosting its combat power, the Ground Force creates deterrence, General Rashid added.

Elsewhere in his remarks, the Iranian commander said the Islamic Republic's Army and Revolution Guards Corps (IRGC) are

Mission Condemns Albanian Police's Vandalism

UNITED NATIONS (Dispatches) -- Iran's permanent mission to the United Nations has condemned the inappropriate conduct of Albania's police forces after they forcibly broke into the Iranian embassy and surrounded the compound following the severance of ties between the two countries.

In a letter to Permanent Mission of the Republic of Albania to the UN, the Iranian mission stated the Islamic Republic vehemently censures the violent actions of the Albanian police against its diplomatic and consular facilities in the capital Tirana on September 8, and their unauthorized entry into the embassy without the permission of competent Iranian authorities.

"Such acts of violence were carried out following the Albanian government's decision on September 7 to unilaterally sever bilateral diplomatic relations [with Iran], which was taken on the basis of unfounded and politically-motivated claims that were categorically rejected by the Islamic Republic of Iran," read the letter, a copy of which was also sent to the UN Secretary-General António Guterres.

"The Islamic Republic of Iran calls upon the Albanian government to strictly observe and implement all the principles and rules of international law concerning diplomatic and consular relations, and to act in accordance with the Vienna Conventions on Diplomatic Relations of 1961 and 1963 and the resolutions of the United Nations General Assembly as regards the protection, security and safety of diplomatic and consular compounds."

The letter also called on the Albanian government to take all necessary measures to fully investigate the unlawful act against the Iranian embassy and to bring the perpetrators to justice.

"The Islamic Republic of Iran reserves the right to use other means to peacefully resolve disputes
