## More Lies on the 9/11 Myth as Biden Utters a Big Lie

By: Kayhan Int'l Staff Writer

For the past 22 years we have been saying that the US regimes' version of the so-called 9/11 incidents in New York that brought down the landmark 110-storey high twin towers are nothing but a set of preposterous lies.

According to investigative journalists and technical experts in the US itself, the whole thing was a pre-planned implosion in front of the already stationed TV cameras, and the two aircraft that ploughed through the two towers were drones designed to hit the building the moment the elaborate explosive circuits were triggered.

Now more lies are emerging. The latest being President Joe Biden's statement yesterday in his anniversary speech (but not from New York or Washington) that he was present at the so-called ground zero immediately the next day on September 12, 2001.

The Congressional Record shows that Biden was in Washington, D.C. that day, and not in New York City. Not only was he in attendance at a Senate session, but as the chairman of the Foreign Relations Committee managed the discussion prior to a vote on the incident.

Biden has also been criticized for marking the anniversary in Alaska, the first time a US president hasn't been at one of the attack sites or the White House on the 9/11 anniversary. He was returning from a G20 meeting in India, while his wife Jill laid a wreath by the 9/11 memorial at the Pentagon in Washington – and not Ground Zero in New York.

This is ample proof that the US politicians are a bunch of liars and the whole official version of the 9/11 incidents are myths.

A few years ago, the monthly Reader's Digest carried an article titled: "10 Myths about the U.S. Constitution Most Americans Believe."

Among the myths of the U.S. Constitution listed by the prestigious journal were "All Men Are Equal", and "The United States of America is a Democracy".

It discussed and dismissed these two and other myths. The writer sought to prove that neither all citizens (let alone all men) are equal in the eyes of the various U.S. government departments nor the U.S.A. is a functioning democracy.

This is clear by the violation of human rights both at home and abroad by the US regimes, the genocide to exterminate the native Amerindians, the discrimination against the Black and Hispanic people, censorship of the press to suppress facts but spread fake news, the entire process of elections that normally propel to power idiotic and dangerous persons like Bush Junior and Donald Trump, the support for dictatorial, tyrannical and unelected regimes around the world, the coups, wars, and sanctions to undermine and overthrow democratic systems of other countries, and so on.

FM Amir-Abdollahian:

## Iran Ready for Talks Based on 'September Document'

Iran's Foreign Minister Hussein Amir-Abdollahian, center, addresses a seminar attended by a group of professors of political science and international relations held at the Institute for Political and International Studies of the Ministry of Foreign Affairs in Tehran on Tuesday.

TEHRAN - Iranian Foreign Minister Hussein Amir-Abdollahian on Tuesday expressed the Islamic Republic's readiness to negotiate last year's draft agreement aimed at salvaging the 2015 nuclear deal, also known as the Joint Comprehensive Plan of Action (JCPOA), and removing illegal U.S. sanctions.

Amir-Abdollahian made the remark at a meeting of the Iranian Foreign Ministry's senior officials with a group of university professors of political science and international relations in the capital Tehran.

Amir-Abdollahian underscored the current administration's efforts to neutralize Western-led sanctions against the Islamic Republic while keeping the window open for negotiations to remove the illegal U.S. bans.

"Today, we are not at the point of

reaching a temporary agreement, and what took place was the dignified reclamation of the Iranian nation's assets in two phases from the United Kingdom and South Korea," the top Iranian diplomat said, referring to the recent release of the Islamic Republic's frozen funds in the two countries.

"The Islamic Republic of Iran is ready to negotiate the September draft document for the realization of the rights of the Iranian nation and the removal of sanctions, while maintaining its red lines," he added.

But Iran has not stopped there and at the same time, it has seriously put the "neutralization of sanctions" on the agenda, he added.

Amir-Abdollahian also pointed to Iran's growing cooperation with regional and international organi-

zations, saying, "The membership of the Islamic Republic of Iran in the Shanghai Cooperation Organization and BRICS is a big step that bespeaks the high status and capacities of the Islamic Republic among the world's emerging economies."

The United States, under former president Donald Trump, abandoned the JCPOA in May 2018 and reinstated inhuman sanctions that the agreement had lifted.

The talks to revive the 2015 deal kicked off in the Austrian capital city of Vienna in April 2021, with the intention of removing anti-Iran sanctions and examining the U.S. seriousness in rejoining the JCPOA.

The discussions, however, have been at a standstill since August 2022 due to Washington's insistence

Gharibabadi:

## Turkey, Iran Need to Expand Legal, Judiciary Cooperation

TEHRAN – Secretary of Iran's High Council for Human Rights Kazem Gharibabadi on Tuesday stressed the need to expand legal and judicial cooperation between Iran and Turkey.

Gharibabadi made the remarks in a meeting with the Turkish ambassador to Tehran Hicabi Kirlangic.

Gharibabadi expressed readiness for strengthening interactions and expanding legal-judicial relations and cooperation with Turkey, adding that the expansion of judicial

cooperation not only can enhance the overall bilateral ties, but also will be of great help to the citizens of the two countries.

Referring to the judicial cooperation agreement between Iran and Turkey he said that one of the main parts of this agreement is the transfer of convicts between the two countries.

Elsewhere in his remarks, he referred to the fight against terrorism, organized crime, Islamophobia, and support for the people of Palestine emphasizing that Iran

and Turkey have extensive and positive cooperation in these areas within international bodies.

Hicabi Kirlangic, for his part, referred to the friendly and significant relations between the two countries and the various shared aspects of neighborhood, Islamic values, and culture.

He also stated that following negotiations between officials of the two countries, the necessary ground has been laid for the extradition of 40 Iranian prisoners in Turkey to return home.

## Judiciary Spokesman: Swedish National Jailed in Iran for Crimes

TEHRAN – The spokesperson for the Iranian Judiciary Masoud Setayeshi said on Tuesday that a Swedish citizen has been imprisoned in Iran for committing crimes.

Speaking at a press conference, Setayeshi said the Swedish national has faced charges of committing crimes in Iran.

He noted that a preliminary inquiry has been made about the charges and the Swedish citizen has been sent to prison after legal prosecution.

It appears that the investigations are being finalized and the case will come to the court in coming days, the spokesman

added.

Setayeshi stated that the Iranian Judiciary is absolutely serious when it comes to the security of the Iranian citizens and acts fairly, carefully, and mightily against anybody disrupting the security of the Iranian people.

Sweden and the European Union Commission said last week that a Swedish national was being detained in Iran. Sweden said Johan Floderus was detained in April 2022 for what his family said was alleged spying.

And also on Tuesday, a legal hearing session was held in the

Iranian capital Tehran for the ringleader of the Tondar terrorist group, with 120 petitioners against the United States government for its support of the group's terrorist activities.

Justice Husseinzadeh, who presided over the meeting, said the session was held to shed light on the charges against death row convict Jamshid Sharmahd, who planned and orchestrated terrorist acts against the Islamic Republic, including a 2008 attack against a religious congregation center in the southern Iranian city of Shiraz, which killed 14 people and wounded hundreds.

## Iraqi FM to Visit Iran to Discuss Security Pact

TEHRAN - Iraq's Foreign Minister Fuad Hussein says that he will exchange views with the Iranian authorities on the implementation of a major security agreement between Tehran and Baghdad during an imminent visit to Tehran.

Hussein made the remarks at a press conference with his Austrian counterpart in Baghdad on Tuesday, noting that his government has taken essential measures to eliminate anti-Tehran elements from joint borders with Iran.

He stated he will travel to Tehran on Wednesday to hold talks with Iranian officials to discuss the security pact.

The top Iraqi diplomat also emphasized that his country is committed to complying with its commitments under the security agreement signed with Iran.

Hussein added Iraq and Iran enjoy strong relations, adding that Iraq will not allow its territory to be used by certain groups to attack neighbors.

The security deal with the Iran requires Iraq move militant groups opposed to Iran from border areas in the Kurdistan region.

### KRG Warned of Presence of Anti-Iran Terrorists

The foreign minister of Iran cautioned that the presence of terrorists in the Iraqi Kurdistan Region runs counter to the friendly ties with Tehran and contravenes the Constitution of Iraq.

In a meeting with leader of the Patriotic Union of Kurdistan Bafel Talabani, held in Tehran on Monday, Iranian Foreign Minister Hussein Amir-Abdollahian thanked the Iraqi government and people as well as the Kurdistan Regional Government for their hospitality during the Arbacen season.

Iran wants an independent, prosperous and developed Iraq, Amir-Abdollahian said, praising the role of late president of Iraq Jalal Talabani.

He, however, said the presence of terrorists in the Kurdistan Region and their actions against Iran's security are at odds with the Iraqi Constitution and with friendly relations between the two nations. The Iranian foreign minister added that no one must undermine the security of Iraq's neighbors.
