Caution Prevents Many an Accident

Salaam dear young friends, and hopefully you are all fine by the Grace of God Almighty. May the Lord Most High grant you youngsters the essence of faith, along with the best of health, and of course, success and prosperity in life, with salvation in afterlife!

Never be careless in any sphere of life, whether at school, or at university; and for that matter at home and among friends, while commuting in any form of transport or performing exercises and playing games.

Be careful while crossing the street, and don't expect that all motorists and bikers are excellent drivers and conscious of their actions. It is your responsibility to be extra cautious in order to avoid accidents or any untoward incident.

Many accidents occur while you are unaware. As a matter of fact, an accident means a sudden and unexpected calamity and not something that is planned.

So dear youngsters use every precaution to protect yourselves; physically, psychologically, and spiritually, and this way you will safe and sound.

Mental and Spiritual security is very vital. First of all, utmost efforts should be made to safeguard the sensitive parts of our body, like the head and limbs, and then we ought to be in the proper state of mind, so as to keep our brains safe and sound.

We are not talking about brain tumours, brain hemorrhage, Alzheimer's disease, and etc. What we mean is to have the proper mindset that does not go off the track, nor could be perverted by harmful thoughts.

Once improper ideas creep in, whether through misguided persons in society or whether through the propaganda of the enemies of humanity, such as the US and its lackeys, then simple-minded people would be misled and turned into thugs, vandals, traitors, and even terrorists.

This is clear from the events that normally occur around the world.

Therefore, in order to protect the mind, we should strive to perfect our faith, and perfection of faith means the correct cognizance of God Almighty, our Merciful Creator. And this is not possible, except through following the guidelines of the Prophets, particularly the Last and Greatest of them all, Prophet Muhammad (SAWA).

This means Islam is the most dynamic path towards God and salvation, and as the holy Qur'an clearly states in ayah 3 of Surah Ma'edah, faith was perfected by the Prophet's proclamation of Imam Ali (AS) as his vicegerent on the command of God.

At the end of our weekly chat, lets pay homage to the children of Gaza who are mercilessly being massacred by the illegal Zionist entity for the past one month. Till now more than 5,000 children have been martyred by the child killer regime who is being continuously supplied by lethal weapons and advanced bombs by the Western regimes, especially the US.

We pray for the souls of the martyrs; we supplicate to God for the release of thousands of Palestinians who are illegally being held by the Zionist entity for past several years.

Goodbye and God bless you until we meet again next week.

JOKES

Two little squirrels were walking along in the forest. The first one spied a nut and cried out, "Oh, look! A nut!" The second squirrel jumped on it and said, "It's my nut!" The first squirrel said, "That's not fair! I saw it first!" "Well, you may have seen it, but I have it," argued the second. At that point, a lawyer squirrel came up and said, "You shouldn't quarrel."

A barber, a bald man and an absent-minded professor take a journey together. They have to camp overnight, and so decide to take turns watching the luggage. When it's the barber's turn, he gets bored, so amuses himself by shaving the head of the professor. When the professor is woken up for his shift, he feels his head, and says "How stupid is that barber? He's woken up the bald man instead of me."

A man is sitting on his porch when he notices two workers working down the road. They both have shovels. One of them digs a hole and the other immediately fills it in. The man watches them for a few hours and finally approaches them, "You guys look like you're working hard. But I'm not sure what you're trying to accomplish." One of the workers replies, "Well there's usually three of us, but the one that plants the trees is sick."

The Bundle of Sticks

An old man on the point of death summoned his sons around him to give them some parting advice.

He ordered his servants to bring in a bundle of sticks, and said to his eldest son: "Break it."

The son strained and strained, but with all his efforts was unable to break the bundle.

The other sons also tried, but none of them was successful. "Untie the bundle," said the father, "and each of you take a stick." When they had done so, he called out to them: "Now, break," and each stick was easily broken. "You see my meaning," said their father.
