Biden Exposes Flaws of the Brutal System of Liberal Democracy

By: Kayhan Int'l Staff Writer

Joe Biden, the US president whose hands are dipped in the innocent blood of over 12,000 civilians of Gaza, mostly women and children, unwittingly exposed the articulately concealed fallacies of the highly flawed system of liberal democracy by calling behind the back China's President Xi Jinping a 'dictator', shortly after being outwitted in a personal meeting.

The blockhead who criminally supports the illegal Zionist entity's terrorism against Palestinians and has sent weapons and warships to West Asia to intensify the genocide in Gaza, besides backing the killing of scores of thousands of Slavs in Ukraine, wrongly thinks of himself as an advocate of democracy when according to the West's own definition 'democracy' means a representative or popular government that heeds the people's voice and the public demand for peace.

The US citizens want the end of the war that NATO has pushed Ukraine into against Russia, but Biden and his regime in blind support of the Zionist jester Volodymyr Zelensky – a non-Semitic Khazar claimant to Judaism – is sending state-of-the-art military hardware to Kiev to try to disturb all efforts for peace and stability in eastern Europe by President Vladimir Putin – also called 'dictator' by the bloodthirsty adherent of 'democracy' in Washington.

For the past six weeks hundreds of thousands of conscientious US citizens of all strata of society, including Christians, Muslims, Jews, and non-believers, are demanding ceasefire in Gaza, calling for freedom of Palestine from 75 years of east European Zionist occupation, and questioning the squandering of hundreds of billions of dollars of the hard-earned money of the American taxpayers as aid to abet Israel's crimes against humanity.

Yet, Biden the elected head of a so-called representative government completely ignores public demands and popular voices (even from his own offices), for peace and respect for humanitarian values, and instead intensifies war, bloodshed, destruction, and ethnic-cleansing.

Moreover, like his predecessors in the White House who were all bloodthirsty claimants of democracy with a record of terrorism, atomic bombing, and massacre of millions of people all over the globe, Biden is a cheat, a liar, a promoter of discrimination at home, a proliferator of tensions abroad, a preventer of the progress of world countries through sanctions, and a plunderer of the wealth of nations.

The US is not alone in this tyrannical field of liberal democracy. It enjoys the criminal company of tricksters of the regimes of Western Europe, especially of Britain, France, and Germany.

It is also aligned with the unelected potentates of several Arab and African colonial-created states where people have no vice, and are suppressed with US-supplied weaponry – although second or third rate when compared to armaments given free to the illegal Zionist entity.

And, of course, liberal democracy means the US should be hands-in-glove with Usurper Israel to treat the natives of Palestine as 'human-like animals' to be brutalized, bulldozed, bombed, and blown to bits at will.

In contrast, we have to admit in view of the record that speaks for itself, Biden's 'dictators' have never behaved in such a brutal manner as the claimants of liberal democracy, ensuring all the while the progress of their nations and goodwill on the global scale with efforts for peace and removal of tensions between countries, along with castigation of the crimes against humanity of terroristic regimes.

President Raisi: 'Just World Order' to Emerge From Blood of Gazans

President Raisi addresses a ceremony to inaugurate a new hospital in Tehran's Shahriar County on Nov. 19, 2023.

TEHRAN -- Iran's President Ebrahim Raisi said Sunday a "just world order" will emerge from the blood of the Palestinian people who are the target of a genocidal war being waged by the occupying regime of Israel.

Addressing a gathering of people in Tehran's Shahriar County, Raisi said people across the world hold hatred toward the Zionist regime and are disappointed at the United Nations and its Security Council, which are no longer effective in preventing Israeli atrocities against Palestinians.

"Today, people feel that they should seek the establishment of a just world order," he said.

"A just world order will definitely be formed through the will of nations and the pure blood of the Palestinians."

The president also said the resilience of the people of Gaza is a lesson to the entire world to resist and declare hatred toward the enemies

of humanity.

"The pure blood of 5,000 Palestinian children will cause divine revenge to hit today's pharaohs and end their rule," he said.

On Saturday night, Iran strongly condemned Israeli airstrikes on UN-run schools in the northern Gaza Strip, which martyred dozens of people, including children.

"Unfortunately, the occupying Zionist regime is ruthlessly and viciously perpetrating new war crimes and carnages on a daily basis against Palestinian women and children, who have taken refuge in houses, shelters and temporary accommodation centers, in light of the inaction of world states and international bodies," Foreign Ministry spokesman Nasser Kanaani said.

He called upon the international community, particularly the Muslim world, to take on their responsibilities and adopt immediate and deterrent actions in the face of the naked

and premeditated genocide of the criminal Israeli regime against the defenseless Palestinian people.

At least 50 people were martyred in Israeli air raids on the Al-Fakhroora School, run by the United Nations agency for Palestinian refugees (UNRWA), in the Jabalia refugee camp, the Palestinian Ministry of Health said.

Several people were also martyred and hundreds of others injured in a separate attack on another school in Tal al-Zaatar neighborhood.

Hundreds of people are believed to have taken shelter at both schools from barbaric Israeli airstrikes.

"Shelters are a place for safety. Schools are a place for learning. Tragic news of the children, women and men killed while sheltering at Al-Fakhouri school in northern Gaza. Civilians cannot and should not have to bear this any longer," UN relief chief Martin Griffiths said in reaction to the Israeli air raids.

Iraq Says 100 Observation Posts Built Along Iran Border

TEHRAN -- The commander of the Iraqi Border Patrol says the country has finished the construction of over 100 observation towers along the borders of the Kurdistan Region of Iraq with Iran.

According to a statement from the Iraqi Border Patrol, the measure is part of the security agreement between Baghdad and Tehran to protect the borders against security threats and smuggling.

Back in March, during a ceremony attended by Prime Minister Muhammad Shia' al-Sudani in Baghdad, then-secretary of

Iran's Supreme National Security Council (SNSC), Ali Shamkhani, and his Iraqi counterpart al-Araji signed a joint security cooperation document to curtail the activities of Kurdish militants.

The Islamic Republic had previously threatened to take action if Kurdish groups did not move their militants away from the Iranian borders in the Kurdistan Region of Iraq.

On September 19, Iraq announced that it had complied with the terms of the joint security pact with Iran and disarmed

the opposition groups on the border.

Late in September, Iraqi border guards built "a 200-kilometer-long security barrier and installed more than 150 thermal cameras within the border with Iran," state media reported, citing an interior ministry official.

Tehran has long accused the Kurdistan Regional Government (KRG) of harboring terrorist and anti-revolutionary elements and permitting them to use border areas as launchpads for attacks against Iran.

U.S. Probes Iranian Reformist Despite Pro-West Record

WASHINGTON (Dispatches) -- The influential House Committee of Education and the Workforce has launched an investigation into the role of Hussein Mousavian at Princeton University under the belief that he was advancing the interests of Iran, Fox News reported.

Twelve Republican committee members sent a letter to Princeton President Christopher L. Eisgruber with detailed questions about the alleged influence of the Islamic Republic of Iran via Mousavian's activities on the campus of the New Jersey-based Ivy League institution.

Rep. Lisa McClain who

along with Rep. Jim Banks spearheaded the letter to Princeton, told Fox News Digital said the mere fact that Mousavian had been given a platform at Princeton was "proof" that "higher education has bowed down to the radical left and enemies of America for far too long".

According to Fox News, Mousavian's conduct raised alarm bells from pro-Israeli United Against a Nuclear Iran after he attended the funeral of General Qassem Soleimani in Tehran in 2020 and appeared in a tribute to the legendary commander in a 2022 Iran TV program. Mousavian said on Ira-

nian TV that an American told him, "The wife of Brian Hook could not sleep for a few nights now" because she feared her husband, Hook, the former U.S. Iran envoy at the time of the assassination of Soleimani, would face retaliation from Tehran."

The U.S. military assassinated Gen. Soleimani, the commander of the Quds Force, in January 2020 in Iraq where he was for official talks.

"When President Trump had General Soleimani assassinated, I was in Iran to visit my mother who was hospitalized," Mousavian told Fox News Digital.

Azerbaijan, Iran Stress Need for Regional Peace Mechanisms

TEHRAN -- Iranian Foreign Minister Hussein Amir-Abdollahian says regional mechanisms play a key role in establishing peace and promoting convergence among the countries in the region.

In a phone conversation with Azerbaijani Foreign Minister Jeyhun Bayramov, the top Iranian diplomat added that further activation of formats for regional cooperation would serve the interests of regional countries.

The Azerbaijani foreign minister, for his part, stressed the importance of boosting dialogue and regional mechanisms without interference of extra-regional states.

Bayramov hailed growing relations between Tehran and Baku and called for more cooperation between the two sides on regional and international developments.

On Saturday, an aide to Russian

Former Vice President Sentenced to Suspended Jail for Libel

TEHRAN -- Iran's former vice president under Hassan Rouhani has been sentenced to 12 months' imprisonment for "false accusations" against Parliament speaker Muhammad Bagher Ghalibaf.

The court's recent verdict sentenced Es'hagh Jahangiri to "four months of imprisonment for defamation and eight months for spreading falsehoods," but considering Jahangiri's legal position, the prison term was commuted to a cash fine of 440 million rials.

The sentence, based on a complaint filed by Ghalibaf, is preliminary and subject to appeal.

Earlier this year, Muhammad Saeed Ahadian, the political and media assistant to the parliament speaker, referred to Ghalibaf's complaint against Jahangiri in a tweet, explaining that "Ghalibaf had filed a complaint in 2017 due to false statements made by Jahangiri."

Simultaneously, media reports
