### Leader's Words Reverberate at Washington's Anti-Zionist Rally

By: Kayhan Int'l Staff Writer

The so-called White House in Washington that was built with forced labour of the black people and whose corridors give the smell of human blood shed around the world by criminals posing as elected presidents and directing terrorism all over the globe through sadistic murderers calling themselves cabinet secretaries, glowed red on Saturday as tens of thousands of peaceful protesters surrounded its perimeter with demands for end of the holocaust in Gaza which 'Genocidal Joe' is intensifying in league with Tel Aviv's notorious child-killer Benjamin 'Satanyahu'.

'Biden the Butcher', who was thousands of kilometers away in Paris toasting with a comrade-in-crimes against humanity (Immanuel Macron), the latest round of bloodbath by the Zionists who slaughtered almost 300 unarmed people in a few hours at the Nuseirat and Deir al-Blah refugee camps, besides seriously injuring over 600 others, including children and women, was surely shown clips of his headquarters encircled by red banners bearing names of the 36,000 martyrs of the ongoing Gaza holocaust as the 'red line' set by the conscientious citizens.

According to reports from the French capital, he remained unmoved and stuck to his lies of what he called "Israel's heroic rescuing of its hostages", even while seeing placards in bold letters: "(nearly) 40,000 people dead Joe Biden your hands are red"; "May the cries of all the kids you bomb haunt you"; and "Biden you are on the wrong side of history."

Without the least doubt his face may have suddenly turned pale at the sight of a huge banner glorifying the current campaign of university students throughout the US with the words "You are on the right side of history."

It seems that along with Biden, the other guests celebrating D-Day or the merciless bombing of Germany to defeat by the Allied Powers in 1945, including the reducing of Dresden to rubble and the mass rape of German women and girls by the US forces, all lost colour at the four-and-a-half decade long futility of the regimes of the West to prevent spread of the liberating message from Iran to people around the world, especially the North Americans and the Europeans.

Isn't the sentence "You are on the rights side of history" part of the recent epistle of the Leader of the Islamic Revolution to American university students for their braving of police brutality to denounce Biden's complicity with weapons and funds to aid and abet Zionist terrorism as well as their growing demand of "Palestine should be free from River (Jordan) to the (Mediterranean) Sea"!?

Yes, it surely is. Ayatollah Seyyed Ali Khamenei's prophetic words have finally penetrated the very nerve centre of the deceitful, decayed, deformed, and depraved system of liberal democracy.

Insha Allah (God Willing), it is only a matter of years for eventual collapse of capitalism as prophesied by the Late Imam Khomeini (RA).

The justice-seeking US citizens made up of Christians and the Zionism-hating real Semitic Jews, who regard Israel as a basic violation of the tenets of Judaism, have shown their determination against backing away from their reformist slogans.

We in the Islamic Republic of Iran should now spare no efforts to encourage them, along with our duties to rid West Asia of the American occupation bases as well as the struggle to wipe out the cobweb called Israel.

"Biden you are a liar" blared loudspeakers of the peaceful mostly red-clad rally replete with the waiving of Palestinian flags at the White House on Saturday, undaunted by the pepper spray of the cowardly American police forces, while effectively calling on fellow citizens to neither vote for "Biden the Butcher" or "Trump (Donald) the Trash" in the coming presidential elections.

## Interim FM Bagheri Kani on CNN Turk: Iran to Put Zionists in Their Place if Needed

Iran's interim FM Ali Bagheri Kani addresses an extraordinary meeting of foreign ministers of the Developing Eight (D-8) Organization for Economic Cooperation in Istanbul, June 8, 2024.

ISTANBUL (Dispatches) -- Iran's interim foreign minister says the Islamic Republic will not hesitate to employ its deterrence power in case Israel undermines regional security and stability.

In an interview with CNN Turk, Ali Bagheri Kani said the Zionists are well aware that Iran will "wisely" and "effectively" use its power to "put them in their place."

"The Zionists' airstrike on the consular section of the Iranian embassy in the Syrian capital Damascus prompted the country to effectively and wisely utilize its power components in order to ensure the security and stability of the region," Bagheri Kani said.

"I think the Zionists know very well that in case they try to destabilize the region and undermine its security, Iran will use its might to contain them and put them in their place," he added.

Iran's Islamic Revolution Guards Corps (IRGC) launched missile and drone strikes on Israeli-occupied territories on April 13 in retaliation for an April 1 attack on the Iranian consulate in Damascus.

Bagheri Kani urged Muslim countries to halt all political and economic cooperation with

the Zionist regime and impose a mass boycott on Israeli products.

Such measures would be the most effective means for Muslim nations to demonstrate solidarity with the Palestinian cause, and oppose Israeli policies, he said.

Commenting on escalating tensions between Russia and the West, Bagheri Kani said there is a need for dialogue between the two sides to resolve the differences.

He rejected the notion of a military confrontation, saying, "We do not see a war as a solution to the problem. Our advice to both sides is to use dialogue in a political context."

The senior Iranian diplomat also pointed to Tehran's civilian nuclear program, stressing that the Islamic Republic's atomic program is in strict accordance with the International Atomic Energy Agency (IAEA) requirements and international treaties.

"Iran's nuclear program and activities are fully legal and under the supervision of the IAEA," Bagheri Kani noted.

On Wednesday, the IAEA's Board of Governors passed a resolution against Iran during its meeting, despite warnings

from Tehran that it would react decisively to such a measure.

The resolution, supported and put forward by Britain, France and Germany, urged Iran to cooperate more with the IAEA and to allow an increased number of inspectors to visit nuclear sites in the country.

Tehran "rejected all the allegations" in the E3's letter and "reiterated its position concerning its peaceful nuclear program and the JCPOA."

Separately, Bagheri Kani said the occupying regime of Israel has "no qualms" about committing the most serious international crimes against Palestinians during its "full-scale Gaza genocide."

"Over the past eight months, the Islamic Republic of Iran has been one of the loudest voices against the Zionist regime's bloodshed against the oppressed people of Palestine and has tried to stop this invasion and genocide as soon as possible," he wrote in an opinion piece in the Turkish Milliyet newspaper.

He also expressed regret that the international community has failed to take an effective measure against the occupying regime's heinous atrocities,

### IRGC Captures Anti-Revolutionary Element in Ardabil

TEHRAN -- The Islamic Revolution Guards Corps (IRGC) intelligence forces have arrested an individual in Iran's northwestern province of Ardabil on charges of directing a disinformation campaign against the Islamic establishment, and manipulation of the public opinion.

The official IRNA news agency said the foreign-based individual, whose identity was not immediately available, had manipulated the minds of ordinary people through a dis-

information assault on the Islamic Revolution, spread lies, desecrated the national Iranian flag, participated in anti-Iran rallies abroad and colluded with monarchists against the Islamic Republic.

The report said IRGC intelligence forces coaxed the counter-revolutionary agent into traveling to Iran and capture him in Ardabil Province.

He has been handed over to judicial authorities for legal action.

The development comes only a few days after Iranian intelligence forces identified and arrested an individual in the same province on charges of espionage for the Israeli regime's Mossad spy agency.

The fugitive was wanted by Iran's Intelligence Ministry, and was captured upon an order from the prosecutor's office of Ardabil Province.

According to the media bureau of the provincial prosecutor's (Continued on Page 7)

### Flight Models of Kowsar, Hodhold Satellites Unveiled

TEHRAN -- Iran on Sunday unveiled flight models of the homegrown Kowsar and Hodhod satellites.

The models were put on show at a ceremony here, where the active professionals of the private sector had gathered to honor the endeavors of late President Ebrahim Raisi in the space field.

The Kowsar satellite is expected to be placed at a distance of 500 kilometers from the Earth's surface this autumn aboard the Russian rocket Soyuz.

It can be used for agricultural, mapping and demarcation purposes.

The satellite is equipped with two cameras and can take images with a resolution of 3.45 meters.

Back in February, Iran successfully launched the domestically-built Pars 1 research-sensing satellite by a

### Report: Terrorist Leader Rajavi in Critical Condition

TEHRAN -- Maryam Rajavi, the head of the terrorist Mujahedin Khalq Organization (MKO), is in a critical health condition, according to reports and informed sources.

Rajavi, 70, was going back to MKO headquarters in the French city of Auvers-sur-Oise on the northwestern outskirts of Paris on Sunday evening when she suffered a panic attack and was rushed to the hospital, sources told IRNA news agency.

The reports on her critical health condition have been leaked despite an order to put a gag on the incident.
