The Wonders and Warnings of Modern Technology

Salaam dear young friends, hope you are all well by the Grace of Almighty Lord.

Today we would like to talk about modern technology. Why it is considered great and when it becomes harmful to us.

Well friends, as most of you may recall, before the advent of gadgets and mobile technology, children used to spend their leisure time beside their families and holidays are given to children to relax, enjoy themselves, and catch up on studies, or to spend time with family or relatives.

Each and every piece of technology has its own advantages and disadvantages.

For students mobile phone could be a factor for advantage or disadvantage, depending on its use. Buying a mobile phone for kids is easy, but the parents should think twice before buying for them, although in this age of satellites, mobile phones are really essential for everyone.

Thanks to mobile phones, emails, and video calls, we can talk to our friends and family even if they are far away. Different types of applications help us stay connected anytime, anywhere. With the internet and smart devices, learning has become more exciting! You can watch educational videos, play learning games, and even attend online classes.

But, it doesn't mean that you can't live without a mobile phone. When people spend too much time on phones or computers, they sometimes forget to talk to each other in real life. Family and friendship are very important, and spending time together matters a lot.

We should also know that not everything on the internet is true. Some websites and videos can show wrong or harmful things. That's why it's important to ask a parent or teacher before visiting new websites.

Sitting too long while using a computer can lead to poor posture, headaches, and even obesity. Physical activity, sports, and exercise are just as important as screen time. Some kids (and even adults!) become addicted to gadgets and games. It's hard for them to stop using them. This can lead to poor grades, mood swings, and less interest in real-life fun.

Modern technology is like a superhero—it can do great things, but only if used wisely. We should enjoy its benefits and also know when to switch off and spend time with people, nature, and books. Use technology to learn, grow, and have fun—but don't let it control you!

Well friends, Monday was the anniversary of the famous Battle of Ohad, in which Hazrat Hamza (AS), the brave uncle of Prophet Muhammad (SAWA), was martyred as a result of treachery, although the catastrophe for Muslims was avoided by the valour of Imam Ali (AS), who made the Arab pagans retreat.

Alas, the beautiful mausoleum that had stood for over the grave of Hazrat Hamza (AS) today lies in ruins because of the blasphemy of the Wahhabis, who for more than 90 years have occupied Hijaz, just like the occupation of Palestine by the Zionists.

May God damn both of them, and hasten the reappearance of Imam Mahdi to establish the global government of peace, prosperity and justice. Amen

RIDDLES

Dear youngsters, could you answer the following questions.

1. I get paid to shoot people, then blow them up. What am I?
2. I am the book one can never finish reading. What am I?
3. I am lighter than the material I am made of. You see parts of me but more of me is hidden underneath. What am I?
4. I was not born, but I am here. I have no name, but I am given many. I was made by science and life. What am I?
5. I hold two meanings. With one I may be broken, with the other I hold on. What am I?
6. I love to twist and dance. Though wingless, I fly high up into the sky. What am I?

Answers to the questions asked in the previous issue:

1. Dozens
2. Time
3. Mountain
4. Friendship
5. Backpack
6. Skull

Send your jokes. Heard any jokes lately? Well, try and make us laugh too!

Don't hesitate! Mail it to us.

Shahcheraghi Alley, Tehran.

JOKES

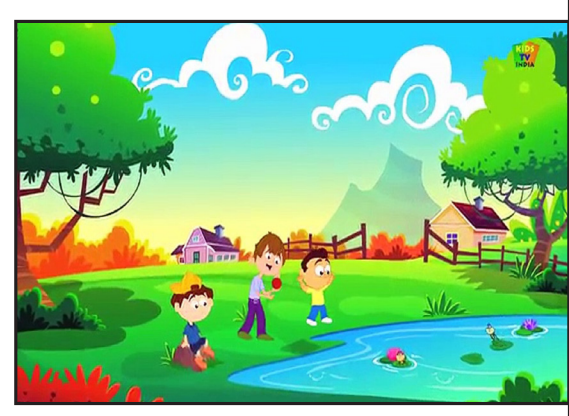

Mother: Son why are you home early today?
Son: Because I was the only one that could answer a question.
Mother: Oh, what question?
Son: Who threw the eraser at the principal?

Son: Hi mom I am home early today.
Mother: Why are u home early today?
Son: Because the teacher said "at the end of this ruler is an idiot."
Mother: And...?
Son: And I asked, which end.

Teacher: Why are you late?
Student: It rained last night. The road was so wet and slippery that for every step I made forward, I slipped backwards two steps.
Teacher: Well, if it rains again tomorrow, start walking in the opposite direction.

The Boys and the Frogs

Some boys, playing near a pond, saw a number of Frogs in the water, and began to pelt them with stones.

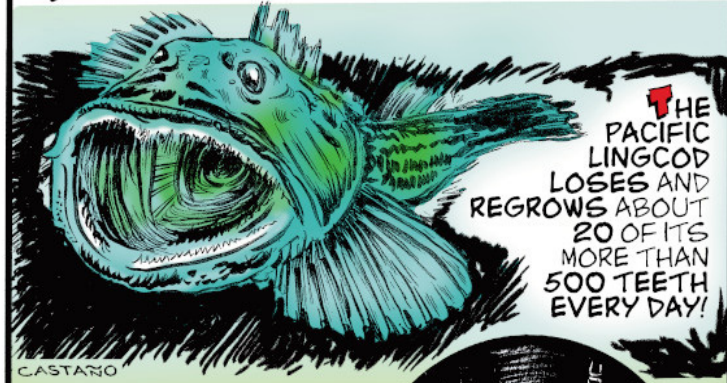

They killed several of them, when one of the Frogs, lifting his head out of the water, cried out:

"Pray stop, my boys; what is sport to you is death to us."

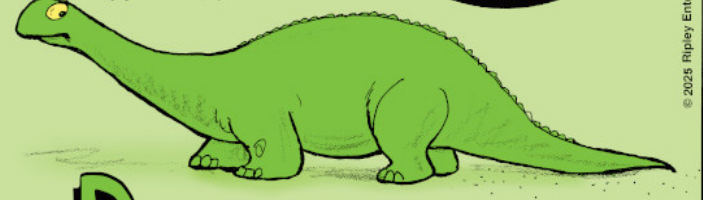

MORAL: "What we do in sport often makes great trouble for others."
